

Darlington Upgrade Project

Major access changes to Flinders Drive and Bedford Park South 4-5 May 2019

Major changes to the way that motorists access Flinders Drive and Bedford Park South will be in place from 8pm Friday 3 May until 6am Monday 6 May 2019, as part of the Darlington Upgrade Project.

The changes are required in order to complete resurfacing works on the southbound lanes of Main South between Franklin Avenue and Brookside Road, Bedford Park South.

Access to Flinders Drive

Northbound motorists on Main South Road wanting to access Flinders Drive will be required to travel over the new Main South Road bridge over the Southern Expressway, turn left at Sturt Road, turn left at Laffer Drive and then continue straight to Flinders Drive. Please refer to the red lines on the plan overleaf for details.

There is no change to access to Flinders Drive for southbound motorists.

Access to Bedford Park South

Northbound motorists on Main South Road wanting to access the local residential area of Bedford Park south will be required to travel over the new Main South Road bridge over the Southern Expressway, continue north on Main South Road and then turn at the new Sutton Road/Mimosa Terrace bridge.

Please refer to the green lines on the plan overleaf for details.

A single southbound lane will be available for use, with Franklin Avenue and Riverside Drive accessible via a left turn in and left turn out only. All movements (right turn in, right turn out, left turn in, left turn out) will remain available at Brookside Road.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to local residents as much as possible.

If you have any questions or would like to speak to a member of the project team who will be available 24 hours, seven days a week, please contact us on 1300 759 334 or alternatively email:

enquiries@gatewaysouth.com.au.

Thank you for your patience while these important works are undertaken.

Kind Regards,
Darlington Upgrade Project Team
