Bulletin No: 470

Date: 29th November 2017

IMPORTANT POLICE MESSAGE TO
ALL TAXI DRIVERS

VALUABLES LEFT IN TAXI CONSOLES

South Australia Police have asked that we remind you once again about reports of belongings, particularly mobile phones being stolen from the taxi console.

We have been advised that often the phones are being kept or stored in the centre console of the taxi, potentially where the drivers are using a USB cable to charge the device, and it is only noted in an undefined period afterwards, that the phone is missing.

Unless drivers take due care and secure their valuable personal property it is difficult for the Police to prove that the loss was intentional theft.

SA Police have asked us to remind you that you must take due care and always store your personal property securely within the taxi.

Cheryle Conduit

Executive Officer
Taxi Council SA
